### **DETAILED ACTION**

1. In response to the Preliminary Amendments filed on September 6, 2001, claims 1-33 are pending.

#### ***Election/Restrictions***

2. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species #1 : Fig. 6;

Species #2 : Fig. 7;

Species #3 : Fig. 8;

Species #4 : Fig. 9;

Species #5 : Fig. 10;

Species #6 : projection screen.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

3. The claims are deemed to correspond to the species listed above in the following manner:

Fig. 6 - claims 6 and 15;

Art Unit: 3713

Fig. 7 - claims 8 and 16;

Fig. 8 - claim 14;

Fig. 9 - claim 5;

Fig. 10- claim 7;

Projection screen – claim 13.

4. The following claim(s) are generic: 1-4, 9-12 and 17-33.

5. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

The aforementioned species 1-6 are distinct and independent as claimed and are patentable over each other. Species 1-6 are unconnected in design and are not usable together as disclosed.
